Groundbreaking ceremony of New Plant in Guilin(2010.12)

With Guilin officials including the deputy mayor and local press participated in, the groundbreaking ceremony for the new Guilin Daewoo bus plant was held on Dec 9th, 2010, at Suqiao industrial zone in Guilin, China where the new plant will be established. Its total area is about 20,900㎡, and it will be installed with the most cutting-edge facilities and advanced quality management system. The new plant will take a big leap forward to become a comprehensive export manufacturing base to produce and sale buses for overseas demands as well as the local market.

Costarica, spreading its sales to Central&South America(2010.11)

Costarica Daewoo Bus participated in 2010 Dominican Bus Exhibition held in Dominica from Nov 29 ~ Dec 5 where Daewoo Bus introduced its latest luxury coach "FX120". Meanwhile, in 2010, Costarica Daewoo Bus expanded its sales network to its near countries in Central and South America, with its experience and dominant sales in the Costarica Market since 1995. Costarica is already receiving constant inquiries from its near countries and we expect Costarica Daewoo Bus to play an important role as a export base to extend Daewoo Bus sales in Central and South America.
